

Marcus Whitfield

Chief Technology Officer

Singapore, SG | +65 5512 4488 | marcus.whitfield@fictionalmail.com | linkedin.com/in/marcuswhitfield-demo

EXECUTIVE SUMMARY

Technology executive with 18+ years leading engineering organizations for high-growth fintech and payments companies. Proven record scaling platforms from seed stage to IPO, building engineering cultures of 300+, and translating business strategy into resilient, secure technology roadmaps. Deep expertise in cloud-native architecture, platform reliability, and cost-efficient scaling.

CORE COMPETENCIES

Cloud Architecture (AWS/GCP) | Engineering Leadership | Platform Reliability (SRE) | Fintech & Payments Systems | M&A; Technical Diligence | Budget & P&L; Ownership | Agile/DevOps Transformation | Security & Compliance (PCI-DSS)

PROFESSIONAL EXPERIENCE

Chief Technology Officer — NovaLedger Financial Technologies

Singapore | Mar 2019 – Present

- Scaled engineering org from 40 to 320 across 6 countries while maintaining 99.98% platform uptime during 11x transaction growth.
- Led migration from monolith to microservices on Kubernetes, cutting infrastructure cost per transaction by 42%.
- Built the technical due-diligence function for 4 acquisitions totaling USD 180M, integrating acquired platforms within 90 days each.
- Established a company-wide SRE practice, reducing P1 incidents by 65% year-over-year.

VP of Engineering — Quickpay Solutions Group

Hong Kong | Jul 2014 – Feb 2019

- Directed 90-engineer division delivering core ledger and settlement systems processing USD 2.1B monthly volume.
- Introduced CI/CD pipeline adopted company-wide, reducing release cycle from 6 weeks to 3 days.
- Partnered with Compliance to achieve PCI-DSS Level 1 and ISO 27001 certification.

Director of Software Engineering — Bridgeway Systems Ltd.

Sydney, AU | Jan 2009 – Jun 2014

- Managed 35-person engineering team building core banking middleware for 8 regional bank clients.
- Redesigned legacy batch-processing system into an event-driven architecture, cutting nightly reconciliation time from 5 hours to 40 minutes.

EDUCATION

M.S. in Computer Science — National University of Singapore, 2008

B.Eng. in Information Systems — University of Melbourne, 2005

CERTIFICATIONS

AWS Certified Solutions Architect – Professional, Certified Kubernetes Administrator (CKA), PMP (Project Management Professional)
