

Simple Guide to Organising a Home Pantry

Step 1: Empty the pantry completely and wipe down every shelf with a damp cloth. Check expiry dates on all items and discard anything that has gone bad.

Step 2: Group similar items together — grains and pasta, canned goods, baking supplies, snacks, and spices. Clear, airtight containers work best for dry goods like rice, flour, and sugar since they keep pests out and let you see at a glance when you're running low.

Step 3: Store frequently used items at eye level and place heavier or rarely used items on the bottom or top shelves. Use small baskets or bins for loose packets so they don't get lost at the back.

Step 4: Label each container and shelf so everyone in the household can find and return items to the right place. A simple printed label or masking tape and marker works fine.

Step 5: Do a quick 10-minute tidy-up once a week and a full restock check once a month, noting down anything that needs to be added to the next grocery list.
